

Programme

27 April 2022 - 2 May 2022

Welcome

Friends of Hilton College

This year marks the 150th anniversary of the formation of the institution we are all so proud to have been associated with, in one way or another. To celebrate this incredible milestone, we have planned five days of events and activities towards the end of April 2022, detailed in this programme. We encourage you to participate, to the fullest extent, not only in order to visit our magnificent campus, for those who have been absent for a while, but primarily to renew and rekindle those friendships and bonds formed during your association with our college – relationships which are unique to a boarding establishment of our nature.

It will without doubt be a week filled with fun, friendship and memories built around, amongst other events, gala dinners, drama presentations, a thanksgiving chapel service and a full day of sporting fixtures against our traditional rivals and close friends Michaelhouse.

On behalf of the Chairman of the Board and the Headmaster, I would like to welcome you to our week of celebration. I would also like to encourage you to participate in and support enthusiastically and generously everything associated with this memorable year and to augment and strengthen those friendships and associations that have been made possible by your time spent at and with Hilton College.

Paul Rayner

Chairman: Hilton College 150th committee

A history of our school

The illustrious 150-year history of Hilton College comes alive in the stories of our people, their accomplishments and the generosity that is at the heart of the school.

Gould Arthur Lucas

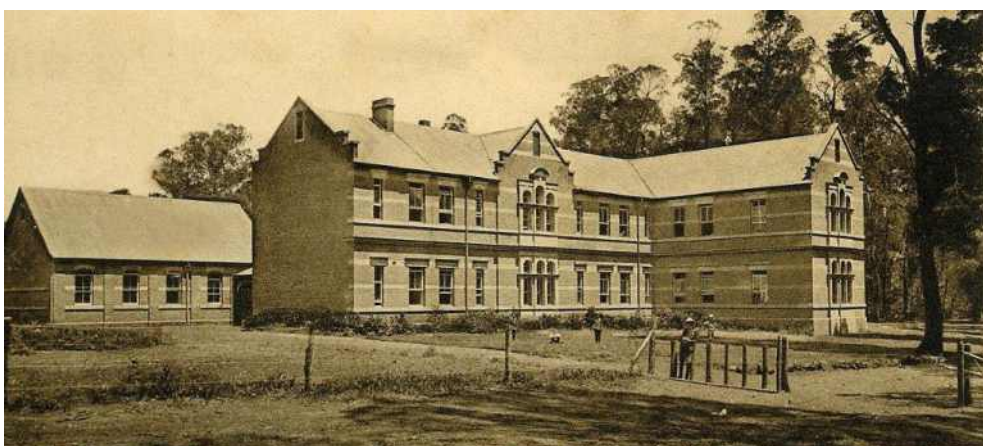

William Orde Newnham

Hilton owes its existence to the meeting of two individuals: Gould Arthur Lucas and William Orde Newnham, who both arrived in South Africa in 1852, though in very different circumstances.

Anglo-Irish Lucas was a young officer on HMS Birkenhead which sank off Danger Point near Cape Agulhas. Among the few soldier survivors, he was posted as district adjutant to Pietermaritzburg where he met the man with whom, decades later, he would found Hilton.

Newnham, an ordained priest, studied mathematics at St John's College, Cambridge under William John Colenso, later Bishop of Natal, who later encouraged him to settle in the colony and start a school.

After his deployment to Pietermaritzburg, Lucas was sent to India, but not before he had noted the beautiful countryside north of the colony's capital. On returning to Natal, he took up the post of magistrate in Ladysmith and helped Newnham establish a school

there, but soon relocated it to land he had purchased outside Pietermaritzburg. And so, on 29 January 1872, Hilton College was born.

At first it was little more than two thatched bungalows but soon a double-storey block was built. From this modest nucleus today's Hilton grew, with buildings being constructed, playing fields levelled and avenues planted. Initially the school was leased from Lucas, but later was bought by Newnham's successor, Henry Vaughan Ellis, until in 1903 it passed into the hands of the old boys, where it remains.

In another distinguishing feature, Hilton is inter-denominational, with the headmaster conducting daily prayers and visiting priests officiating on Sundays before a resident chaplain was appointed in 1982.

Standing in stark contrast to the school's white buildings is the stone chapel, while prominent among its Cape Dutch-style architecture are the Campbell Block, Crookes Block and Saunders Sanatorium, each donated by a family which had prospered from sugar.

As all the boys are boarders, seven separate boarding houses are today arranged along the school's circular drive.

Surrounding this hub is the estate. One-thousand-seven-hundred hectares of timber plantations and acacia-scattered grasslands, fringed by cliffs and cut by streams, it is now largely a proclaimed nature reserve, stocked with giraffe, zebra, wildebeest, warthog and a variety of antelope.

Yet more than by its appearance and locality, an institution is defined by its people. Newnham declared at his first speech day that his greatest wish was that a “Hilton boy” should become synonymous with “gentleman”, denoting someone honest, upright and true as steel. And down the corridor of time his successors – from Ellis to George Harris today – have sought to sanctify this ideal.

Across society, Old Hiltonians have made their mark. Architect and activist Rusty Bernstein played a pivotal role in drafting the Freedom Charter, the blueprint for South Africa's lauded Constitution. And when South Africa's first Constitutional Court was instituted, chosen to head it was Arthur Chaskalson, who decades earlier had defended Nelson Mandela in the Rivonia Trial, with another Old Hiltonian, John Didcott, among his legal team. Other notable alumni include cardiac surgeon Sir Terence English, trauma surgeon Ken Boffard, academic and novelist Imraan Coovadia, architect Glen Gallagher, cricketers Mike Procter and Lungi Ngidi, and Springbok rugby captains Gary Teichmann and Bob Skinstad.

When Hilton turned 100 in 1972, headmaster Raymond Slater defined his ideal Hilton boy as someone not necessarily academic or sporting, but who has compassion, humility, sensitivity, imagination and a concern for others. As Hilton celebrates its 150th birthday, Harris echoes these sentiments, while reiterating that “of those to whom much is given, much will be required”.

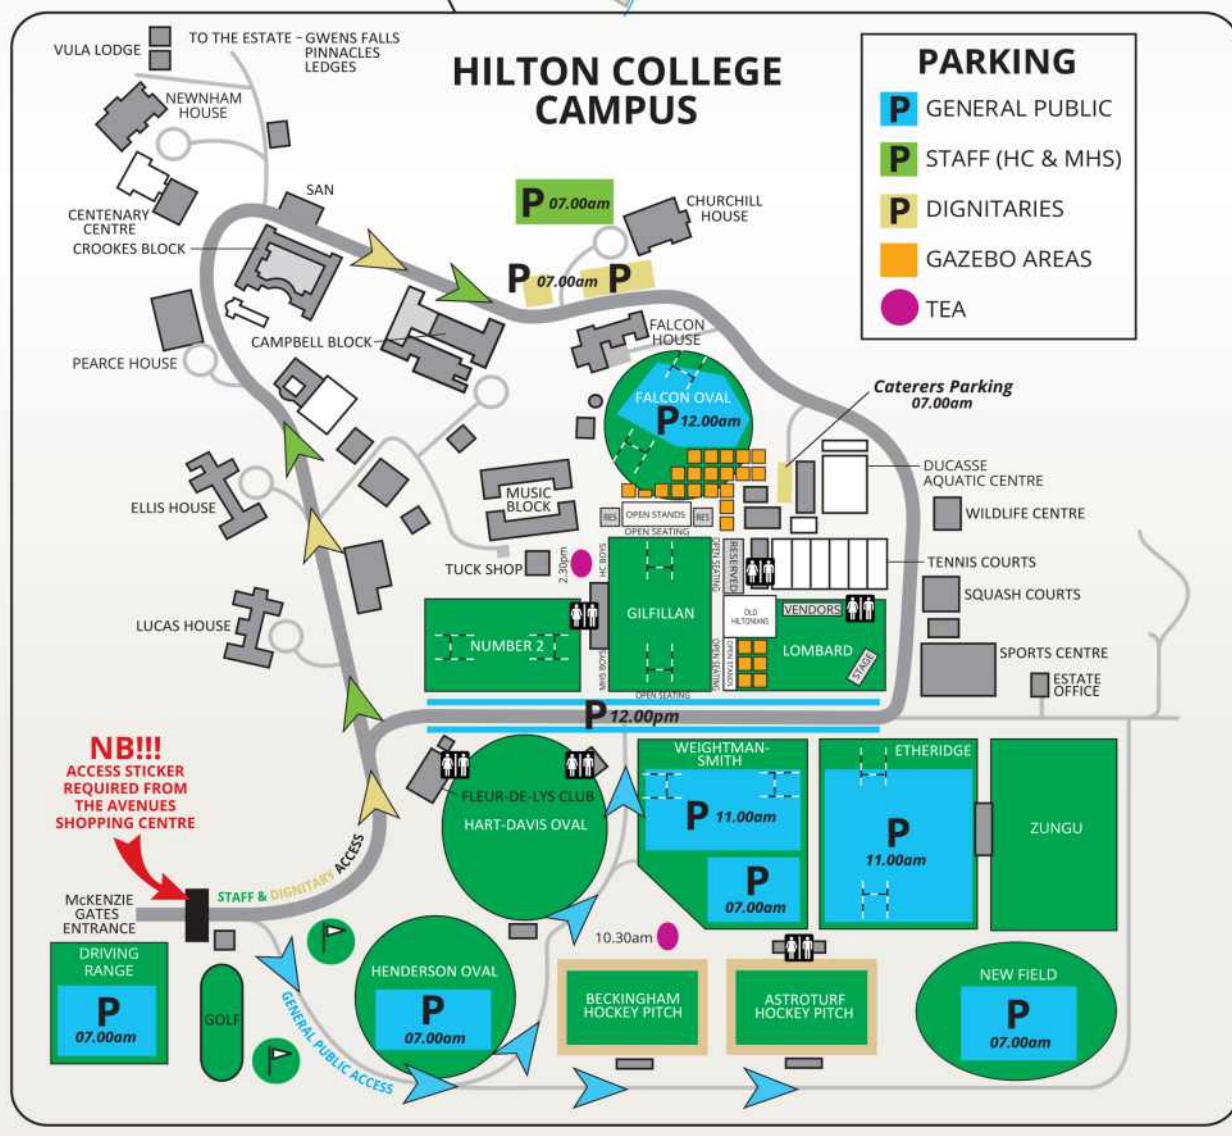

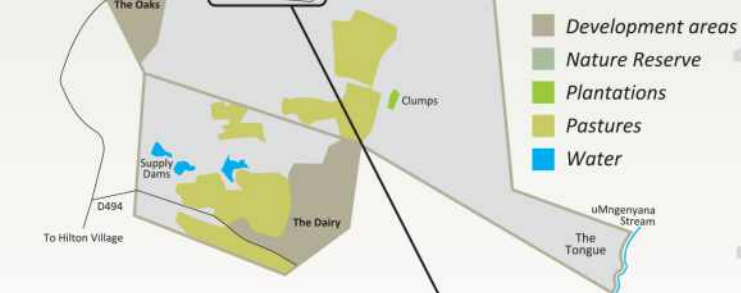

With privilege comes responsibility, and Hilton boys are taught that it is more blessed to give than to receive. These values are modelled by alumni who fund the education of promising boys who would otherwise not be able to afford the school's fees, and the Vula Programme, which since 2001 has been up-skilling teachers from under-resourced schools.

William Newnham's founding values live on.

THE DAIRY AT HILTON

From the developer of The Gates comes The Dairy at Hilton, a secure residential development consisting of 78 homes set on 66ha along the southern boundary of the Hilton College Estate, and fully located within the extended boundaries of the Hilton College Nature Reserve.

The developer, Gwens Stream Estates (Pty) Ltd, is a wholly owned subsidiary of the Hilton College Endowment Foundation. Its mandate is to increase Hilton College's endowment by converting some of the value embedded in the Hilton College Estate into valuable residential property. The funds realized will build the school's endowment and assist materially in the provision of bursaries to promising boys.
